## AI SECURITY ANALYSIS

gpt-4.1-nano · two-pass analysis

### INTELLIGENCE KNOWLEDGE CHECK

TRUSTED

E-commerce platform / Major tech company

Recognized entity

amazon.com is a globally recognized major e-commerce platform and cloud services provider, with a well-established reputation and infrastructure. It is a trusted brand with no known associations with malicious activity or threat infrastructure in reputable threat intelligence sources.

### SCAN EVIDENCE VERDICT

90 /100 **LOW RISK**

Based on prior intelligence, amazon.com is a well-established, trusted major e-commerce platform with no known malicious associations. The real-time scan confirms a valid SSL certificate, proper security headers, and no threats flagged by common blocklists. The domain's long registration history and consistent security posture strongly support its legitimacy. There are no indications of malicious activity or red flags that contradict the prior knowledge.

1. Maintain current trust level; no immediate action required.
2. Continue monitoring for any future threat intelligence updates or anomalies.
3. Ensure security headers remain properly configured to uphold security standards.
