INTELLIGENCE KNOWLEDGE CHECK

TRUSTED   Travel booking platform   Recognized entity

Booking.com is a globally recognized major online travel agency and accommodation booking platform, owned by Booking Holdings. It has a long-standing presence, high domain age, and is associated with legitimate commercial activity. No known malicious associations or suspicious infrastructure are linked to this domain in reputable threat intelligence sources.

SCAN EVIDENCE VERDICT

85 /100   LOW RISK

The domain booking.com is a well-established, trusted travel booking platform with a long history and reputable ownership. The real-time scan confirms its legitimacy, showing a valid SSL certificate, proper DNS records, and no known threats flagged by blocklists. The HTTP headers are mostly standard, with some missing security headers, but this is typical for large commercial sites. Overall, the scan evidence aligns with prior intelligence, reaffirming its trusted status.

1. Maintain routine monitoring, but no immediate action is necessary given the strong trust indicators.

2. Consider implementing additional security headers like X-Content-Type-Options and Content Security Policy to enhance security posture.

3. Regularly review DNS and SSL configurations to ensure continued compliance with best practices.
