INTELLIGENCE KNOWLEDGE CHECK

TRUSTED   Financial services   Recognized entity

cash.app is a well-known mobile payment service operated by Block, Inc., widely used for peer-to-peer transactions. Its domain is recognized as legitimate and associated with a major financial technology brand. No known malicious associations or suspicious infrastructure are linked to this domain.

SCAN EVIDENCE VERDICT

85 /100   LOW RISK

Based on prior intelligence, cash.app is a well-known, trusted financial service operated by Block, Inc., with no known malicious associations. The real-time scan confirms a secure setup with valid SSL, proper security headers, and no redirects, aligning with its reputable status. The only notable concern is the missing Referrer-Policy and Permissions-Policy headers, which are minor in this context. The blocklist flag from Spamhaus is likely a false positive, given the domain's established reputation.

1. Maintain routine monitoring for any future blocklist flags or security issues.

2. Consider adding missing security headers such as Referrer-Policy and Permissions-Policy to enhance security posture.

3. No immediate action required; the site remains trustworthy based on combined intelligence and scan evidence.

4. Verify DNS records periodically to ensure consistency and security.
