### INTELLIGENCE KNOWLEDGE CHECK

TRUSTED

Online gaming / Chess platform

Recognized entity

Chess.com is a well-established, globally recognized online chess platform with a long operational history and high domain age. It is associated with reputable brand presence and is widely used for legitimate gaming and learning purposes. There are no known associations with malicious activity or threat infrastructure based on historical data.

### SCAN EVIDENCE VERDICT

85 /100 **LOW RISK**

The domain chess.com is a well-established, reputable online chess platform with a long operational history and trusted brand recognition. The real-time scan confirms a valid SSL certificate, proper security headers, and no indications of malicious activity or blocklist flags. These findings align with prior intelligence, reinforcing its status as a trusted site. There are no red flags or suspicious indicators that suggest malicious intent or compromise.

1. Maintain routine security monitoring, but no immediate action is necessary.
2. Ensure SSL certificate remains valid and security headers are consistently configured.
3. Periodically verify threat intelligence sources for any emerging issues related to chess.com.
