A screenshot of the gametime.co website. The header features the 'GAMETIME' logo and navigation links for Sports, Music, Comedy, Theater, Cities, Venues, and NCAA Tournament. A 'Log In' button is in the top right. The main content area has a dark green background with the headline 'Find your next great experience.' and subtext 'Sports · Music · Shows'. Below this is a search bar with the placeholder 'Search team, artist or venue'. A section titled 'Popular Events in International Events' shows four event cards: 'FIFA World Cup: Colombia vs ...', 'Peter Kay (15+ Event)', 'Bad Bunny', and 'Metallica'. Each card includes an image, event name, date, time, venue, and starting price. At the bottom, there is a 'Teams Nearby' section with navigation arrows.

INTELLIGENCE KNOWLEDGE CHECK

UNKNOWN

Unknown — likely entertainment or ticketing platform

Unknown domain

The domain gametime.co appears to be a legitimate commercial domain, possibly related to event ticketing or entertainment services, based on its name. There are no known associations with malware, phishing, or malicious infrastructure in my training data. Its registration details suggest a standard commercial entity rather than a malicious actor.

SCAN EVIDENCE VERDICT

25 /100 **MEDIUM RISK**

The domain gametime.co appears to be a legitimate, relatively aged commercial site with no known malicious associations from prior intelligence. Real-time scan evidence shows a valid SSL certificate, standard security headers, and no redirects or active threats flagged by blocklists. However, it is an unfamiliar domain with minimal security headers (missing X-Frame-Options, COOP, COEP), and its unknown status warrants cautious trust. Overall, the evidence suggests a low to moderate risk, but the domain's unfamiliarity and missing headers prevent full confidence.

1. Monitor the domain for any future suspicious activity or changes in security posture.
2. Implement additional security controls if integrating with sensitive systems or user data.
3. Conduct further manual review or user verification before engaging in sensitive transactions.
4. Keep an eye on threat intelligence sources for any emerging issues related to this domain.
