INTELLIGENCE KNOWLEDGE CHECK

TRUSTED

Travel booking platform

Recognized entity

kiwi.com is a well-established online travel agency specializing in flight bookings, recognized globally and associated with a reputable brand. Its domain has been active for over 30 years, with no known history of malicious activity or association with threat infrastructure. The domain's registration details and infrastructure are consistent with legitimate commercial use.

SCAN EVIDENCE VERDICT

25 /100 **LOW RISK**

The domain kiwi.com is a well-established, reputable travel booking platform with a long history and no known malicious associations, aligning with prior intelligence. The real-time scan confirms its legitimacy through valid SSL, proper DNS records, and absence from major blocklists. While some HTTP security headers are missing, these are common for commercial sites and do not indicate malicious intent. Overall, the evidence supports a trustworthy assessment consistent with prior knowledge.

1. Continue monitoring for any future blocklist or threat intelligence updates.
2. Consider implementing additional security headers like X-Frame-Options and Referrer-Policy for enhanced security.
3. Maintain SSL certificate renewal and ensure HSTS remains properly configured.
4. Verify DNS records periodically to confirm no unauthorized changes.
