INTELLIGENCE KNOWLEDGE CHECK

TRUSTED   Financial services   Recognized entity

paypal.com is the official domain of PayPal, a globally recognized leader in online payments and financial services. It has a long-standing history, high domain age (over 26 years), and is registered with a reputable registrar (MarkMonitor), indicating it is a legitimate and trusted entity.

SCAN EVIDENCE VERDICT

85 /100   LOW RISK

The domain paypal.com aligns with prior intelligence as a well-established, trusted financial services provider with a long history and reputable registration. The real-time scan confirms a valid SSL certificate, proper security headers, and no known threat flags, supporting its legitimacy. The redirect chain loops back to the same domain, indicating standard behavior rather than malicious redirection. Overall, the evidence strongly confirms the domain's authenticity and safety.

1. Maintain current trust status; no immediate action required.

2. Continue monitoring for any future threat intelligence updates or anomalies.

3. Ensure security headers like X-Frame-Options and Referrer-Policy are implemented for enhanced security.
