INTELLIGENCE KNOWLEDGE CHECK**TRUSTED**

Financial services

Recognized entity

Wise.com is a well-known, reputable financial technology company specializing in international money transfers and currency exchange. It is a recognized brand with a longstanding presence in the fintech sector, trusted by millions globally.

SCAN EVIDENCE VERDICT**95** /100 **LOW RISK**

Based on prior intelligence, wise.com is a well-established, trusted financial services provider with a longstanding reputation. The real-time scan confirms a secure setup: valid SSL certificate, high-confidence CDN usage, and no suspicious redirects or threats detected. The absence of critical security headers like X-Frame-Options and Referrer-Policy is noted but not unusual for a major, reputable site. Overall, the scan evidence aligns with the trusted profile, indicating no immediate security concerns.

1. Maintain monitoring for any future security header issues, especially on pages handling sensitive data.
2. Ensure SSL certificate renewal is tracked, though current certificate is valid for 57 days.
3. Continue regular threat scans to confirm ongoing safety, as no threats are currently detected.
4. Verify that security headers like X-Frame-Options and Referrer-Policy are implemented to enhance security posture.
